## NO SPRAY AGREEMENT

This document forms an agreement between the Talent Irrigation District, named as the district and \_\_\_\_\_, named as the Landowner.  
(Printed name of Landowner)

The Landowner requests that no chemical sprays be used to control plant growth on the district right-of-way located on Landowner's property. The district will avoid spraying that specific section of right-of-way provided the Landowner does the following:

- 1) Permanently affix a sign stating "No Spray" clearly visible from any direction of travel through the right-of-way and clearly marking the boundaries of the No Spray Zone.
- 2) Keep that specific section of right-of-way clear of plant growth to the satisfaction of the District Manager or Agent. The standard for judgment of satisfaction control will be comparison to spray controlled sections in the area. Any mechanical method of weed removal used must not damage the integrity of the canal bank and must not interfere with District access or operation.
- 3) Landowner is solely responsible for damage to the canal or structures of the district contained within the right-of-way arising from Landowners fulfilling this agreement. Landowner is solely liable for damage to third parties (such as damage to crops from loss of water) as may arise from Landowner's action in relation to this Agreement.

This No Spray Agreement terminates on December 31st of the current calendar year. The Landowner must sign a new No Spray Agreement and have it on file in the district office prior to January 1<sup>st</sup> of each calendar year, if they wish to have the No Spray Agreement continue past the current calendar year.

If Landowner fails to conform to the terms of this Agreement, the District may void this Agreement without notice. In such case, the right-of-way will be sprayed at the district's convenience.
